|             | 25   | 1626.5 - 1660.5          | 3.72                   | 0.71 PM                       | 204KG1W                       |

Output power listed is conducted. The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 1 m from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter except as described in this filing. End users and installers must be provided with antenna installation and transmitter operating conditions for satisfying RF exposure compliance.
